

Security Assessment Report

Tool: PortBiter v3.0

Target URL: <http://127.0.0.1:5000>

Date: 2026-04-08 19:27:50

CONFIDENTIAL

Executive Summary

PortBiter v3.0 has completed a security assessment of http://127.0.0.1:5000. The scan identified 0 total vulnerabilities, with 0 rated as Critical/High risk. Immediate remediation is recommended for identified high-risk endpoints to prevent unauthorized access and data exposure.

Scope & Methodology

The assessment was performed using automated AI-driven scanning techniques. Methodology includes automated crawl, header analysis, and simulated injection attacks. All tests are non-destructive and simulated where applicable.

Risk Overview

Severity	Count
Critical	0
High	0
Medium	0
Low	0

Key Findings

Attack Insights (AI reasoning)

No complex attack chains were identified during this scan.

Prioritized Recommendations

Conclusion

The assessment revealed several security gaps. Immediate priority should be given to fixing IDOR and CSRF issues.
